every politician of both par- ware or canned goods.

It is unusual for a Democratic administration to be more interested in the outcome of a Republican senatorial primary than in the fortunes of its own candidates, yet it is true so far as the Roosevelt administration is concerned.

Chief interest lies in the bitter, no-quarter battle being waged between Senator David A. Reed and Gov. Gifford Pinchot for the Republican senatorial nomination.

Watch Senate Battle

Reed is conservative; he has been and continues to be a most consistent and persistent critic of Roosevelt policies as they have been expressed through the "new deal." Reed is opposed to the NRA, the AAA, and most of the other alphabetical organizations which compose the Roosevelt program.

On the other hand, Pinchot has campaigned virtually on a Roosevelt platform. A bull mooser under the first Roosevelt, the lanky governor has endorsed almost everything that the second Roosevelt has done in his first year in the White House. He has charged Senator Reed with being "an errand boy for the (Continued On Page Two)

TO ELECTION BOARDS

The News, as usual, will make every effort to give comprehensive returns of the primary election Tuesday evening. To get the best service for the public, co-operation of the elec-

tion boards in New Castle and Lawrence County, is needed. The News has two requests. One is that boards telephone or send to The News on Tuesday night, the complete count for any office, and for all offices, as soon as the results are attained. The other is that boards make their returns to the court house on Wednesday morning, as early as possible. Usually there are a few precinct boards that delay bringing the returns until late Wednesday, and this holds up the complete count for the county.

Any co-operation given by the boards in these two requests will be much appreciated by The News. News phones for election night are No. 4000.

Great May Day Sale

Occurs Wednesday

With spring house cleaning past | 100 WASHINGTON, May 14.
In Pennsylvania tomorrow the "new deal" clashes with the "old deal" in a spectacular primary election which every politician of both par-

ties is watching with intense And the answer is Wednesday, Bureau sponsors a May Day Sale in New Castle for the express purpose of giving the buyers of the city and county values that would seem impossible if they weren't true.

Gerald C. Myers is chairman of the sale day and has found the merchants co-operating in the sale to an unusual extent. Announcements of what they have to offer will appear in The News tomorrow and the smart buyer will save the copy for reference purposes.

In the spring a young man's fancy may turn to thoughts of love but the average woman keeps a weather eye peeled for bargains. Wednesday offers more bargains than there are pineapples in Porto Rico. The thing on near Wadding's service station to do is grab off an armful while the grabbing is good.

National And State Party today, but an attempt was made amid gun fire to hijack the intermediary.

Somewhere near Downey, a suburb, three carloads of gunmen closed in on the emissary and a gun fight ensued.

The emissary fled to a nearby substation of the sheriff's office and a police call brought a score of radio cars into the district, to escort him back to the office of Attorney Ernest E. Noon, chief intermediary for the Gettle family.

Two Suspects Taken Shortly after the hi-jacking attempt two men were picked up, one of whom was reported to have a gun, while the other was said to have a rude map of the district. The men were being held incom-

municado for questioning. This was the version of the affair given out by District Attorney Buron Fitts today following a conference with other law enforcement heads. The failure to make the payoff apparently had blocked the release of Gettle, which was expected to

It may not be this year, what with the growth of the Democratic party in the Keystone state, and the personal popularity of Mr. Roosevelt. But the heat of the Reed-Pinchot fight and the significance of the issue drawn between them has made the primary more interesting in the politicians' eyes than the actual results in November.

Democratic Contenders On the Democratic side, the principal contenders for the senatorial nomination are "Joe" Guffey, national committeeman, and Roland S. All in all, it is the warmest battle of the off-year campaign, and because of its significance, so far WILL BE HIS AIM as the national administration is concerned, the most interesting.

If Reed wins, the Republican regulars will interpret it as an indication that all is not yet lost; that there is hope for 1936; that politically things are returning to normalcy. If Pinchot wins, it will be a different story. In that event, the politicians are going to conclude that the new deal still is in the ascendency so far as John J. Citizen is concerned.

PRIMARY BATTLES BEHOOVE LARGE STATE VOTE

THERE are few political observers who will sincerely make predictions of a run-a-way race for any candidate in the Republican or Democratic state-wide primaries tomorrow.

Not in many years has a primary election day neared with so much uncertainty as to the ultimate winners of the state and national office contests.

In the Republican party there is a merry war for the nom- without complaint, said goodby. inations, while the Democrats have also succeeded in stirring up more competition than in decades past.

PROMISE OR MENACE

The head of a great American chemical manufacturing concern predicts the end of all disease in 50 years. He included the dread cancer within the scope of his prophecy, which he bases on the progress now being made in chemical science.

The prediction does not come within the realm of the impossible. In fact, many unversed in chemistry or medicine have long been confident that mankind would soon conquer the last of its disease enemies. This confidence has been strengthened and rewarded by the progress made in the battle against tuberculosis and the virtual elimination of disease epidemics in the United States.

Chemicals have long been employed effectively in the destruction mation of their sons and daughters. of the enemies of vegetable life. Why should they not be as effective against the germs which prey upon human life? Already chemistry and surgery have made great headway against disease.

But what will it avail chemical science if it frees humanity from they can go when they are pennithe menace of disease only to destroy humanity with poison gases, devastating explosives and other fiendish munitions of war? Some of the very chemical formulas devised to rid mankind of its invisible enemy vides, many thousands of young -disease-are more invisible and a thousand times more deadly to man people would miss a number of meals than the germs for the eradication of which they are intended.

Upon chemistry is civilization dependent in great part for its future happiness and welfare. Chemical research must not be interrupted nor restricted. There is no menace to man in the advance of chemical science. The menace is the use to which man puts his chemical knowledge. The world must see to it that this knowledge is employed for the protection of man not for his destruction.

THE NATION'S PROBLEM

The big question is not how many people are back at work, but how many are still out of work. On this point it is easy to deceive ourselves. Back of the unemployment is the relief it requires. And the volume of that relief shows the ground still to be recovered. Here are some

The area hardest hit by the depression was the "American Ruhr," the industrial area extending from Pennsylvania westward into Michigan. Its center is Cuyahoga county, Ohio, which means Cleveland. That area went lowest in the depression and has made perhaps the most rapid recovery, outwardly, of any important section.

Yet in Cuyahoga county last month there were over 42,000 families dependent on public relief, more than ever before. Many thousands have gone back to work, but those left are nearer the bottom of their re-

In the country as a whole there are still millions out of work. All our public problems today center in their problem.

CLEVER CRIMINALS

What is a clever crook?

The question has been raised in connection with the exploits of the notorious outlaw Dillinger.

In the eyes of Edward P. Mulrooney, former New York police commissioner, Dillinger is "just a dumb crook." There is nothing clever in

"The really clever crook," he said, "is the man who is so smart Then the little shots get mad at the he never touches any crime that will make the headlines in the newspapers. He is the man who commits crimes against notorious characters who cannot get police protection, so that he gets the profits without the publicity. The newspapers are apt to lose sight of the clever full of little shots, the little shots

Dillinger may be dumb, as the former commissioner says, but his is a kind of dumbness that frequently makes police officials, not excluding federal agents, look foolish.

APPETITES AND BOOKS

The secret of why school textbooks cost so much is out. It was revealed by testimony in a national recovery-code hearing behind closed doors held last month in Washington. The testimony has just been made public. It disclosed the ex-

penditure of half a million dollars by textbook publishers on "meals" for public officials.

The estimate was given by a representative of one of the country's large book-publishing concerns which caters to school trade.

It was necessary, or at least advisable, he said, that salesmen buy meals for officials charged with the task of purchasing school textbooks. This expense, naturally, is added to the cost of the books; the I wonder if that fat old girl is really

larger the appetite, the higher the price of books.

The elbows, says a college professor, are a mirror of the mind. Evidently a mind all wrinkled and furrowed with care.

And while the rest of us are seeking truth in the book of life the cynics are busy looking for little flaws in the punctuation.

As a general rule, when a man knocks matrimony it's equivalent to a confession that he was too dumb to pick the right sort of wife.

The only difference is that important people aren't tickled to see their names in print unless the publication is equally important.

Every other fool fad has been popularized, so why not a "disengagement ring," after the troth comes unplighted, with the picture of a

gate on it?

Somebody is always quoting, with approval, four lines written by a poet named Walter Savage Landor Quoting them as if they were wholly true and profound and contained a lesson for everybody. They were written when Landor, who lived from 1775 to 1884, was in his last years a very old man who had lived a full life and was content. Here "I strove with none, for none was

ture, Art; warmed both hands before the fire of life;

It sinks, and I am ready to de-

This quatrain has one high visture. It is easy to understand. The poet fought with no man, because he was never able to find any man worth figuring with. He loved nature-trees, flowers, the mountains, the sea. And he loved art—painting, sculpture, putting words together in shapely, truthful prose or poetry. You notice that he does not say he loved man, although he may not have thought it necessary to mention him, because man is a part of nature and the creator clart. For nearly 80 years he had warmed his hands before the flame of living, but at last it died down and instead of trying to build another fire, he resigned himself to its extinction, and

The line that does not arouse my admiration is the first: "I strove with none, for none was worth my strife. And I wonder what was the poet's mind when he wrote those ten words. Did he despise men? Did he never meet his equal in this life, who challenged him to desperate battle? I don't understand just what wrestle?" But I don't understand who writes as his farewell message: "I strove with none: for none was worth my strife"....Do you?

Silver Speculators Caught? Administration Veers to Stabilization A Young U.S. Attorney Makes Good

By LESLIE EICHEL Central Press Staff Writer

NEW YORK, May 14 .- If the government actually intends to nationalize silver, Wall Street speculators may be caught. If the government should set a price of 30 to 35 cents an ounce, instead of the prevailing figure of around 50 cents profit of speculators would be wiped out. Otherwise, considerable of the taxpayers' money is likely to find its way into the hands of a few speculators.

STABILIZATION The Roosevelt administration fears to boost silver. Price reaction

it is believed. On the other hand, money stabilization (which now seems to be the aim) may induce more world business and effect a gradual but persistent price rise. On money questions, the administration is veering strongly to the

Listen to what

Mrs. Abbot J. Copeland has to

say on shopping—and nerves:

"There's no doubt in the world that healthy nerves

are vital to a man who goes out and catches wild ani-

mals alive. But take it from a busy wife and mother

who spends many hours each week searching through

the stores-anxious to make the family budget reach

as far as possible-you need healthy nerves to be a

shopper, too! Tramping through miles and miles of

aisles...pricing, comparing, judging quality and values

... well, that's a test of anyone's nerves. 'Nerves'

don't ever bother me, though. As for cigarettes,

I smoke Camels. They don't upset my nerves.

And I have never tasted such flavor and mildness."

Frank Buck, who has brought back many tons

of wild cargo from the jungles of Asia, says:

"It takes healthy nerves to bring 'em back alive. It's a job

packed with thrills, excitement and real danger. I never would

have been able to populate half the zoos in this country, cross

the Pacific 20 times with tons of savage live cargo, and save

my own life a half dozen times by quick action if I didn't have

healthy nerves. I am a heavy smoker. I prefer Camels, knowing

that I can safely smoke all I want without upsetting my nerves.

ASKS STREET IMPROVEMENT

Editor News New Castle, Pa

Being a resident and a daughter of a New Castle resident, I am much concerned in the conveniences around the city, especially that of Center street. To think that a street in the heart of town has been negleeted by the city. Practically ev-ery street in New Castle and out-side the city, measures have been taken to improve the streets by placing in sanitary sewers, sidewalks, etc., but no measures have ever been taken to improve condi-

tions of our section. It is because of our foreign born parents, who have had no one to help them get their rights, but just take what they get, or has it just been overlooked?

I do think that as taxpayers of the city of New Castle, we are entitled to all conveniences, mainly sanitary sewers just as well as tax-

mentioned. And it being the center of the city. It gives one the impression of a dirty country district, Will Have First Executive

provement and will not wait longer for this as a period of twenty-six or twenty seven years has been long ence the councilmen and other officers of the city and citizens of New

Castle to see how and what conditions exist in the center of the city. Yours very truly, PAULINE D. THOMAS. 123 Center Street.

A Message to Registered Democratic Voters of Lawrence County!

We wish to again urge you to vote tomorrow for the candidates of the Roosevelt Democracy in Pennsylvania: JOSEPH F. GUFFEY for United States Senator, GEORGE H. EARLE for Governor, THOMAS KENNEDY for Lieutenant Governor, THOMAS A. LOGUE for Secretary of Internal Affairs and CHESTER H. Rhodes for Superior Court

These candidates recommended by the State Democratic Committee and unanimously endorsed by the Lawrence County Democratic Committee at a public rally in the Court House, Feb. 17th, are men of the highest type. There is no question of their ability to fill creditably the high offices for which they have been proposed.

Unbossed . . . Unbiased

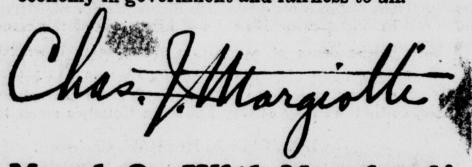

My Pledge to the People

I pledge YOU, if elected Governor, to devote myself to the utmost of my strength and ability to make effective the reforms which the crying needs of the times demand.

In my platform, which has been widely published, I have proposed definite plans for:

- 1-Reduction of taxes on homes, farms and all real estate at least 50 per cent.
- 2-Refund to all depositors in closed state banks 100 cents on the dollar.
- 3-Reduction of exorbitant utility rates on gas, water, electricity and transportation.
- 4-Payment of all public school teachers' salaries out of state funds.
- 5-Abolition of sweatshops and slums and care for the needy, old aged and oppressed.
- 6-Full recognition of the workers' needs . . . Unemployment insurance, compensation for occupational diseases, employment of full crews, use of modern safety devices and abolition of private employment of deputy sheriffs in industrial disputes.

I owe no allegiance to any political faction or powerful moneyed interests. I pledge myself to economy in government and fairness to all.

UNIAN LIPUEN PRIANINALES

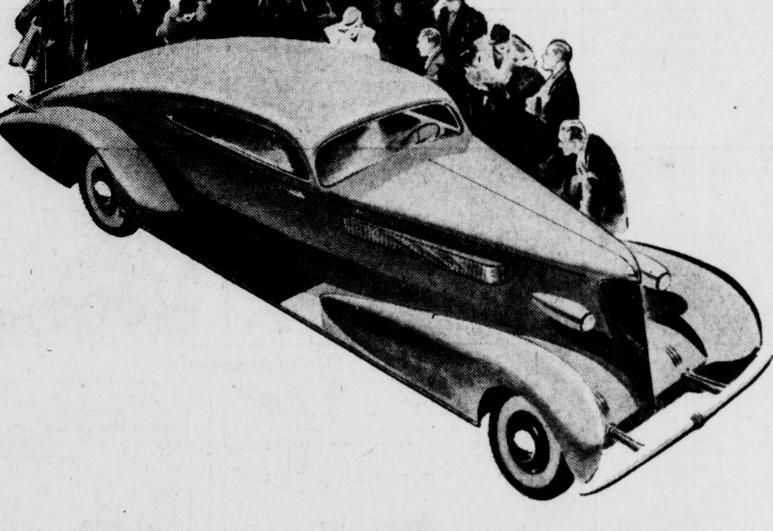

Within the past two days a slate of Democratic candidates has made its appearance in New Castle bearing the endorsement of some mythical "regular" Democratic organization. This is the hand picked slate of Joe Guffey and Dave Lawrence, a slate that was made up by them and which they are now attempting to force down the throats of thinking Democrats.

The one feature of the Democratic party has always been independence of action. In other years Lawrence County Democrats have refused to have Guffey tell them what they had to do. Will they do it this time? Will the independent, right thinking Democrats of this county swallow the Guffey slate or will they stand out and fight for a genuine independent, a man who has helped to banish bossism in Philadelphia and now wants to smash it in the

the various candidates for the General Assembly as to their position on the utility question. Are they afraid to commit themselves or is it because they are not alive to this vital question? Do they believe that we are being charged fair prices for utility service? What do they expect to do about it if they are nominated and elected? Ask them. Insofar as I am concerned my attitude has always been known. So that you will know I want to go on record again. I am against unfair prices for utility service, I am for a stricter regulation of the utilities and a stronger Public Service Commission. If nominated and elected I will work for and support any and all legislation that has for its purpose the lowering of utility

You have heard little from

Here in New Castle we are paying too much. For example, the Manufacturers Light and Heat Company has jumped the price of gas from 37 cents per thousand during war time, to 63 cents thousand now. They buy it for about 15 cents per thousand and then mix artificial gas into it, reducing the heating value to you.

The Pennsylvania Power Company buys its power from its parent concern and sell it to you for 6 or 7 cents for the first kilowatt

The Telephone Company charges a small business man \$5 per month for a telephone, charge him extra for the cradle type of phone, charge you \$2.75 per month for a phone and collects the

The utility question is too broad to be dealt with comprehensively in this small space, but such abuses as I have listed, and a myriad of others should be corrected. If nominated and elected I will work and vote to correct them. What about the other can-

Pirates Defeat Boston 9 To 2 With Smith In Box; Pirates Take First Place

YANKEES WALLOP INDIANS 8 TO 0

By GENE LAWRENCE International News Service Sports Writer

NEW YORK, May 14 .- If the Chicago Cubs win the National league pennant this year, it will be due mainly to the work of four men. Klein and Cuyler, the hitters and Bush and Warneke, the pitchers.

In Klein and Cuyler, the Bruins have a batting duo rivaling the Gehrig-Ruth combination. In Bush and Warneke, they have two of the circuit's outstanding hurlers.

Klein, leading the home run hitters of both leagues, belted his ninth homer of the campaign and Bush hung up his sixth straight win yesterday as the Cubs downed the slipping Giants, 7 to 3. Conference Held At Youngstown By Foremen's Clubs

Ellwood Tube Plant Has Delegation Of 50 At Western Reserve Association Meet

ELLWOOD MEN ARE CONFERENCE LEADERS

ELLWOOD CITY, May 14.-A delegation of 50 from the Ellwood National Tube company Foremen's club was present at the regular session of the Western Reserve Foremen's association, of which they are a member, at Youngstown, O., on Saturday afternoon and evening.

The local delegation was headed by General Superintendent J. W. Offutt, Assistant Supt. George Moyer, Superintendents J. E. Powell, W. B. Hampton, Paul Flautz, and officers of the club, W. Bruce Hunter, George W. Wilson and Tom Gra-

The principal address of the afternoon was given by E. J. Thomas of the Goodyear Tire and Rubber company of Akron, Ohio. His subject was "On Our Way," which was the general theme of the conference and the title of President Roose-

velt's new book Ellwood Men Active Five separate conferences were then held simultaneously. W. B. Hampton, superintendent of the Bar

Mill of the local plant, was a leader of one of the conferences of which the subject was,, "Maintenance Planning." W. R. Johnston of this city presided as chairman at this time. After a rest period five more conferences were held. This was followed with a business meeting and annual election of officers. J. E. McDanel, retired president of the local club was re-elected as first vice president of the association. J. W. Reinhardt of Youngstwdn

was re-elected at president. A banquet was held at 6 p. m. in the Y. M. C. A. building. This was followed with an entertainment in which the Ellwood club played a conspicuous part. Its Glee club rendered a number of selections and at the close was compelled to give a number of encores. The members of the club received an enthusiastic

ELLWOOD CITY, May 14.—Mrs. R. J. Gilbert was delightfully surprised Saturday evening when a group of relatives and friends assembled at her home near Wurtemburg to help celebrate the occasion of her birthday anniversary.

The affair proved to be a complete surprise but the honored one welcomed the merrymakers with pleasing hospitality. Games and music whiled away the hours and at a seasonable time a tempting luncheon was served by Mrs. Glenn Yoho and Miss Delilah McQuiston.

An unusual feature of the evening was the presence of four generations of the same family which included, Mrs. E. E. Brown, Mrs. R. J. Gilbert, Mrs. E. F. Yoho and Margaret Louise Yoho.

Sharing the event were: Mr. and Mrs. Fred McQuiston a Norman, Ruth, Raymond and Helen Jean; Mrs. W. F. Newton and children, Goldie, Betty, Emlo, Lawrence and Raymond; Mr. and Mrs. Glenn Yoho, Mrs. Margaret Carlin, Mrs. E. E. Brown, Mrs. John McQuiston and daughter Margaret, and Mr. and Mrs. R. J. the drive was in full swing. A corps of committees and solicitors armed with pledge cards set out about the city in an effort to raise \$22,500 by the end of the week. The funds are badly needed as the present chest is rather depleted. The bulk of the above quota will go towards the local hospital and the Community Chest. Also Boy and Girl Scouts will receive a share.

The slogan of the drive this year is "Supposing it were you or yours." The campaign is organized into groups and divisions so that reports ference. Its president, H. A. Hurst, can be readily received and tabulated. Michael Edleman is general chairman of the drive and has apparently organized an efficient campaign and is confident that the drive will go through on scheduled time.

Civic Pride Warrants YOUR Support to This Appeal

Ellwood City Community Chest

HEADQUARTERS: CHAMBER OF COMMERCE First National Bank Building ELLWOOD CITY, PA.

Citizens and Friends of Ellwood City:

Tuesday, May 8, 1934.

You will have in a few days the opportunity to proudly exhibit the pride which surely must be in your heart for your home city, its townfolk who are in need, and its two efficient and outstanding organizations, namely, the Ellwood City Hospital and the Community Service League.

This genuine opportunity is granted through an appeal to your generosity by the Community Chest Drive which officially

It is true, and a blessing that the Federal and State authorities have come to the aid of American communities like ours, relieving to some extent the heavy burden of emergency relief during the past winter months. However, this cooperation on their part does not include maintenance and financial support for our two most worthy institutions: your hospital and Community Service League.

This year, much brighter one than several just passed, you are being asked to "give more" so that the efficiency of both the above organizations will not be impaired. Space here does not permit an outline of their services to this community and the personal work done by their members, however, you have without realizing it, a corps of faithful servants. The appeal this year is based on actual requirements and consists of the following:

1. Community Service League \$ 6,163.00 2. Hospital (includes maintenance and interest on building fund)...... 15,747.00 3. Boy and Girl Scouts 590.00

A total of \$22,500.00, very dollar of which will be made a full one hundred cents worth of benefit of you and yours. When you view the illustrated posters being used this year to impress upon our public the importance of putting Ellwood City you will catch the hopeful expression of the little fellow pictured. There are many in our midst who are looking forward with hopeful hearts to the success of this, your

JOSEPH LETA, JR. For General Assembly

In closing my campaign I wish to thank the people for the courteous reception they have given me and wish to leave with them the following thought.

Under our laws the ordinary home owner is called upon to pay from \$200 to \$300 yearly tax for the support and maintenance of the city, county and schools in the district in which he may be residing. Public utilities, which include water companies, gas companies, electric companies and telephone companies, are the owners of many millions of dollars worth of real estate used in connection with their public utility business. These concerns, however, do not pay one cent of tax on said real estate for the support and maintenance of our city, county and schools. The profits from these concerns often go to big interests outside of Pennsylvania, and to make them a privileged class is unfair to the ordinary property owner.

I propose to use my influence for a more equitable distribution of our local tax burden so that these companies may also bear a portion of our local taxes.

A vote for me is a vote for the laboring man and the taxpayer. Respectfully submitted,

WELL, folks, we see where the offi cials can't figure out where to pur our new court house. Well, Frank A Dewberry, your Fleetwing gasoline dealer, has an idea. You know we moved the Lake Erie passenger station to Mahoningtown to put New Castle on the main line (and New Castle hasn't seen a passenger train since) so let's build the court house in Mahoningtown and put New Castle on the main line in a big way. By the time we get through paying for this new court house we will all wish it was built in Mercer county. Why don't we all rise en masse and stop this spending of a million unnecessary bucks?

Leaders End Week-End At Local Camp

Girl Scout Troop Leaders Leave For Home Sunday After Training Course

TWENTY-ONE CITIES REPRESENTED HERE

Twenty-one cities were represent-ed at the week-end training course for Girl Scout troop leaders conducted at Camp John M. Phillips, Kennedy's Mills. The leaders, along with the staff of instructors, numbered over 100 and filled the camp to capacity.

This was one of a series of four week-end training camps conducted over Girl Scout Region · Three (Pennsylvania, Delaware, Maryland, West Virginia and District of Columbia.) The other three are taking place at Scranton, Philadelphia and Richmond.

Leaders of Girl Scout troops in the following cities flocked to the Lawrence county camp Friday afternoon and stayed until late Sunday afternoon: Erie, Altoona, Cumberland, Mr., Latrobe, Greensburg, New Brighton, New Kensington, Beaver, Oil City, Franklin, New Wilmington, Derry, Ellwood City, Monessen, Pittsburgh, Sharon, Sharpsville, New Castle, Butler, Waynesburg and

Instructors were: Miss Helen Thomas of Sharon; Miss Julia Marshall, of Youngstown; Miss Marguerite Ickes, of New York; Miss Isabel Hartman, of Pittsburgh; Miss Helen Wilson, of New Castle; Mrs. Henry Robb, of Cumberland, Md.; Miss Elizabeth Reis and Miss Regina Popp, New Castle, and Miss Jeanne Christy of the Girl Scout national staff, New York.

Miss Christy was general supervisor of the course and was in charge of the unit leaders. Arrangements for the week end were made by Miss Elizabeth Reis, local camp chairman, assisted by Miss Popp and Mrs. W. H. Hanger, Girl Scout commissioner of New Castle. Mrs. Hanger gave the welcome to the camp at the opening gathering around the camp fire on Friday night.

The program included all sorts of training that will help the leaders land, seconded by Davies and adoptsummer. Interesting parts of the camp-fire programs were shadow pictures and a pageant illustrating Operative Workers of America, at the history of the development of Gaston park, at 2 p. m. Thursday, fire. The committee in charge are hopeful that this meeting will be attended not only by RWD workers and the unemployed but by representatives of the business men and representatives of the various political sub-divisions. The committees feel that this is an opportunity for the people of the county to demonstrate their interest in continuing the RWD with its payroll and attendant benefits to everybody.

A meeting of delegates was held Sunday night in preparation for the meeting on Thursday. At the meeting Sunday night a resolution was passed calling upon assistant Director Carl Leathers to put all able bodied men to work on an equal basis until the appropriation expires
It was also stated by the delegates that no political endorsements of any candidate for any office had been made or would be made.

A JOB FOR THE PWA

The Beaver-Mahoning Waterway Should Be Financed By the Federal Government.

Congressman Joseph J. Mansfield, chairman of the House Rivers and Harbors Committee, recommends that the improvement of the Beaver and Mahoning Rivers to provide an all-water route from Youngstown to the Ohio River be financed by an allotment from the Public Works Administration. It is a sensible recommenda-

Certainly local communities should not be asked to assume part of the cost. Western Pennsylvania has fared badly enough, as it is, without being asked to put ore money for Federal projects. This section is one of the heaviest contributors of taxes to the United States Treasury, but received next to nothing of

the original PWA grant of three billion, three hundred millions of dollars. The Federal Government can finance the undertaking without misgivings. The improvement of this waterway, which may eventually lead to a water connection between the Ohio and Lake Erie, will benefit not only the communities along its banks but the whole nation; for the low-cost transportation which will be provided will be appreciated by consumers of the products of the Mahoning and Beaver Val-

leys in all of the states. The enthusiastic approval given the project by the Board of Army Engineers, after an exhaustive survey of the tonnage possibilities and the physical feasibility, is another reason for going ahead with it as early as possible at Federal expense.
